

2022 Virtual Mackenzie Valley Resource Management Act (MVRMA) Workshop Series Closure and Reclamation Workshop, June 8 & 9

BACKGROUND

The MVRMA Workshop Planning Committee is pleased to host a series of four virtual workshops in 2022 related to the *Mackenzie Valley Resource Management Act*. The topics of the workshops were selected based on the results of a Fall 2021 survey given to participants of the MVRMA co-management system. The first workshop on March 30 and 31, 2022, introduced the co-management and integrated system of land and water management established through the *Mackenzie Valley Resource Management Act* (MVRMA) and the Full Report is available on the LWB websites.

On **June 8 and 9, 2022**, the Land and Water Boards of the Mackenzie Valley, the Review Board, and government departments and agencies involved in the co-management system will host the second instalment of the workshop series, specifically on the topic of **Closure and Reclamation**.

WORKSHOP GOALS

The purpose of the workshop series is to help familiarize participants with the co-management and integrated system of land and water management established through the MVRMA.

The goals of the June workshop are to:

- Share knowledge, ideas, and experiences on existing co-management processes with regard to closure and reclamation
- Provide information on current closure and reclamation-related initiatives, projects, and opportunities for engagement

DETAILS FOR JUNE WORKSHOP

Date	DAY 1: Wednesday, June 8	DAY 2: Thursday, June 9
Time	9am -12pm (MDT)	9am -12pm (MDT)
