Meeting Goals:

- Discuss Proposed Criteria presented in the Giant Mine Remediation Project Closure and Reclamation Plan: Open discussion based on April 1, 2019 submissions, reviewer comments provided on the [Online Review Systems](#), and concerns identified during the [July technical sessions](#) to allow Reviewers the opportunity to ask any questions/seek any clarifications from DIAND-GIANT.
- Identify which criteria are being proposed for approval with Licence issuance: Discussion about which criteria are required for approval to begin remediation and what criteria require further development.
- Develop a common understanding of the proposed approval process for criteria that require further development: How can the CRP, Design Plans, Construction Plans, and existing Monitoring and Mitigation Plans work together to inform closure?

The workshop will follow agenda topics. Times are provided as a guideline only.
